Description :

Prsentation de l'diteurThis second volume in Churchills five-volume series The World Crisis is by far the most personaldealing frankly with Churchills failures as a military leader and his ultimately unsuccessful battle to break the European deadlock.After the disastrous Gallipoli landings on the Dardanelles, Winston Churchill served for several months as commander of the 6th Battalion of the Royal Scots Fusiliers. During this time, he served on one of the most violent stretches of the front lines, making a total of 36 courageous expeditions into No Mans Land.Here, Churchill provides an unflinching narrative of a particularly challenging time in World War I and in his own careerproviding fascinating insight into the mental and psychological challenges faced by a major historical leader.ABOUT THE AUTHORSir Winston Churchill was awarded the Nobel Prize in Literature in 1953 for his mastery of historical and biographical description as well as for brilliant oratory in defending exalted human values.Over a 64-year span, Churchill published

over 40 books, many multi-volume definitive accounts of historical events to which he was a witness and participant. All are beautifully written and as accessible and relevant today as when first published. During his fifty-year political career, Churchill served twice as Prime Minister in addition to other prominent positions including President of the Board of Trade, First Lord of the Admiralty, Chancellor of the Exchequer, and Home Secretary. In the 1930s, Churchill was one of the first to recognize the danger of the rising Nazi power in Germany and to campaign for rearmament in Britain. His leadership and inspired broadcasts and speeches during World War II helped strengthen British resistance to Adolf Hitler and played an important part in the Allies' eventual triumph. One of the most inspiring wartime leaders of modern history, Churchill was also an orator, a historian, a journalist, and an artist. All of these aspects of Churchill are fully represented in this collection of his works.

ABOUT THE SERIES Rarely are events that change the world documented by a key participant, someone who was instrumental in making the military and political decisions that would shape the outcome of a world war. Winston Churchill's *The World Crisis* provides the ultimate insider account of a war intended to end all wars, a war so violent it almost undid the West altogether. *The World Crisis* provides a sweeping narrative of the events of World War I that is both gripping and historically detailed based on thousands of private letters and memos written to and by Churchill at the time. Nowhere else is the effect of this war so well conveyed by an eyewitness and historian and so compellingly written.

Revue de presse "The World Crisis is at once an outstandingly readable history of the First World War -- the seminal drama of modern times -- and an eyewitness account, especially of its opening years. Whether as a statesman or an author, Churchill was a giant; and *The World Crisis* towers over most other books about the Great War." -- David Fromkin, author of *A Peace to End All Peace* "Winston Churchill's personality suffuses *The World Crisis*, not only in its arguments but also in its masterful prose. The book, however, aspires to be even more than that -- a general history of the war that shaped the twentieth century as well as the attitudes of one of the century's most powerful personalities." -- Hew Strachan, author of *The First World War* "In this remarkable work, Churchill, as a maker and a writer of history, explores the confusions and complexities of World War I, eerily foreshadowing the later global struggle he would fight alongside Franklin Roosevelt. In a new century, the book remains essential reading, as fresh and compelling as ever, for the central issue it addresses -- how a free people should chart their way through a world of conflicting interests -- is always with us." -- Jon Meacham, bestselling author of *Franklin and Winston*

Presentation de l'auteur This second volume in Churchill's five-volume series *The World Crisis* is by far the most personal, dealing frankly with Churchill's failures as a military leader and his ultimately unsuccessful battle to break the European deadlock. After the disastrous Gallipoli landings on the Dardanelles, Winston Churchill served for several months as commander of the 6th Battalion of the Royal Scots Fusiliers. During this time, he served on one of the most violent stretches of the front lines, making a total of 36 courageous expeditions into No Man's Land. Here, Churchill provides an unflinching narrative of a particularly challenging time in World War I and in his own career, providing fascinating insight into the mental and psychological challenges faced by a major historical leader.
